

Machida Campus

The Machida Campus is located in the natural beauty of west Tokyo, and the cost of living in the area is low. Surrounded by quiet rolling hills, the gentle environment provides an atmosphere conducive to studying with little distraction. There are various exchange programs and activities in which students can interact with the local community.

Fashion Designer and Product Developer in the Fashion Industry; Small Business Shop, Designer; Architect; Real Estate Staff, Agent; Planning and Salesperson in Trading Companies; Web Designer; International Exchange Agency staff; Gardener.

Department of Food and Nutrition

Application pending for a dietary training program

The goal of the courses in this department is to give students the ability to create and coordinate “food for good living.” Students gain the knowledge and the skills to become dietitians. Moreover, they gain the ability to find solutions to food related problems. Interaction with local communities and companies is provided to give students practical experience. Students who graduate go on to work in a variety of nutrition related professions.

Possible careers

Dietician; Food Service Worker at welfare facilities, schools, hospitals and companies; Health Instructor and Supervisor; Planning and Product Developer with food companies and in the food services industry.

Department of Child Studies

The courses offered in this department assist students to become professionals in child development. Students gain knowledge, strategies, and flexibility for ensuring the happiness and positive growth of children. The following areas of study are offered: Childhood Psychology and Growth, Childhood Welfare and Nurturing, Childhood Health and Environment, and Childhood Culture and Society. Practical learning experiences inside primary schools and childcare centers are included to enhance the coursework.

Possible careers

Nursery School Teacher; Instructor of Director of Children's Education; Children's Services Worker; Childhood Insurance; and Children's Specialty Shop Worker.
